September there were sold and delivered 21,976 Ford cars. This was a gain of 11,479 cars over September 1913. This is significant not only because it shows that the Ford production is rapidly being increased to meet the stupendous influx of orders, but also because it demonstrates that the Ford Motor Company is maintaining the 300,000 car-schedule necessary to give Ford purchasers between August 1st, 1914 and August 1st, 1915, a share of Ford

models, and can give you immediate delivery. There's nothing to gain by waiting, so order now and enjoy your car this fall and winter.
